Sharps Container Statement
GR 1210.4

Competition management must place a minimum of one (1) sharps container per competition, regardless of whether stabling is provided. a. If stabling is provided, for every fifty (50) occupied stalls, one (1) sharps container must be provided for the disposal of needles and other disposable sharp instruments. These containers must be placed in visible, accessible, and convenient locations in barns housing competition horses. b. Sharps Containers: A sharps container is made of puncture-resistant plastic with leak-resistant sides and bottom. It has a tight fitting, puncture resistant lid, which does not allow sharps to come out of the container. Sharps containers must be properly labeled to warn of hazardous waste inside the container. Sharps containers must not be altered in any way from its manufactured form, such as removal of security measures or drilling of the plastic. Sharps containers must be protected from the elements as to not collect rainwater. c. It is competition management's responsibility to dispose of contents of sharps containers when the container is three-quarters (3/4) full, in accordance with community guidelines for proper disposal methods. Competition management may fine any individuals including trainers, owners, exhibitors, or their agents up to \$100.00 for improper disposal of needles or other sharp disposable instruments. d. If local law has more stringent requirements than the above, related to sharps containers or disposal, local law will prevail. Competitions that fail to place the required number of containers on the competition grounds or dispose of the contents property will be considered in violation of the rules and may be subject to penalty as determined by the CEO or their designee and/or the Hearing Committee.
